Overview

Features

What's Included

Recommended Accessories

The tablet that can replace your laptop

Performance and versatility for professionals, creatives, and more.

The versatility of a laptop and tablet

Surface Pro 4 runs all the desktop software you rely on, while being lighter than ever starting at 1.69 pounds (766g). The 12.3-inch PixelSense display has extremely high contrast and low glare.

Go from laptop to tablet with the multi-position Kickstand and keyboard (sold separately). And jot down notes and ideas with Surface Pen and improved Type Cover.

When you need to connect to other devices and accessories, Surface Pro 4 has advanced wireless capabilities and all the ports you need.

Exceptional performance

The 6th Gen Intel i5 inside Surface Pro 4 are not only more powerful, they're quieter, run cooler, and are more efficient than

before. It's that kind of performance—plus impressive battery life of up to 9 hours* that makes Surface Pro 4 your mobile workstation for running multiple professional programs simultaneously. And with the 5MP front-facing and 8MP autofocus rear-facing cameras, you can video conference with your colleagues from around the world with confidence.

* Battery life varies significantly with settings, usage, and other factors.

Runs Windows & Office perfectly

Whether you're using touch, a Surface Pen, mouse, or keyboard, Surface Pro 4 runs Windows 10 Pro flawlessly. Create, edit, and share documents in Microsoft Office. Also, Surface Pro 4 runs all of the professional-grade software you need, including Adobe Creative Cloud, Citrix, AutoCAD, or Visual Studio.

Microsoft advanced technology

Writing with Surface Pen feels as fluid and precise as your favorite ballpoint pen on paper. With one click of Surface Pen, a blank OneNote page appears for quick notes—even if your Surface is asleep. Surface Pro 4 is built with the latest facial recognition camera to make your life easier. With Windows Hello, Surface Pro 4 knows you're you, and will sign you in with no password required

Business ready

Surface Pro 4 can handle any task, while seamlessly pairing with your existing IT infrastructure. Built with a TPM (Trusted Platform Module) chip for security, your device is protected by enterprise level encryption.

You can also use BitLocker, new Enterprise Data Protection, Trusted Boot, and Windows Defender for malware protection and data privacy. IT can set up Surface like other PCs, by joining it to a domain and managing it using tools already in place like Active Directory, SCCM, and Air Watch.

Tech specs:

Software:

- Windows 10 Pro
- Office 30-day trial

Exterior:

- Casing - Magnesium
- Color - Silver
- Physical buttons - Volume, Power
